

Please replace paragraph [0100] with the following replacement paragraph.

A marked-up version of paragraph [0100], showing the changes made thereto, is attached.

B3  
--For the above bonding operation, the components were carefully aligned in order to ensure an accurate positional correspondence between the color fluorescent members and the electron-emitting devices.--

On a separate line appearing immediately before the line of paragraph [0130] beginning with "[0130] In this example", please insert the following:

04  
--(Example 4)--.

IN THE CLAIMS:

Please cancel Claim 1 without prejudice or disclaimer of subject matter.

Please add new Claims 41 to 44 to read as follows.

03  
Sub C4  
--41. (New) A method for applying a liquid to a substrate by an ink jet system and detecting an abnormality of the applied liquid on the substrate, the liquid comprising a raw material of an electroconductive film and a solvent thereof, the electroconductive film being arranged to be disposed between electrodes on the substrate and having an electron emitting portion, the method comprising the steps of:

applying the liquid to the substrate by the ink jet system;
